Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 September 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 7-20 is/are pending in the application.
- 4a) Of the above claim(s) 1-6 is/are withdrawn from consideration.
- 5) ☒ Claim(s) 7-20 is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 12 October 2006 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of the invention of Group II (clms. 7-20) in the reply filed on September 15, 2008 is acknowledged.

Claims 1-6 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 15, 2008.

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract of the disclosure is objected to because it exceeds 150 words. Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities:

Missing Subtitles:

Background of the Invention

Summary of the Invention

Objective of the Invention

Brief Description of the Figures

Detailed Description of the Figures

Appropriate correction is required.

Pg. 5, line 1-2, "*adapted to above*" is not grammatically correct

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 6. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 7-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:
The prior art of record does not disclose or fairly suggest an apparatus or method for

debarking/removing bark from logs comprising a plurality of shafts, an offset debarking shaft parallel to and adjacent one of the debarking shafts, the offset debarking shaft being offset in a direction upwards from the debarking plane; a guiding surface parallel and upwards of the offset debarking shaft, a slot between the guiding surface and the offset debarking shaft wherein the slot converges along a direction aligned with a rotation direction of the debarking shaft (clm. 7); and advancing the removed bark over the rotating offset debarking shaft and through a slot formed between the offset debarking shaft and the guiding surface wherein the slot is too narrow to pass the logs (clm. 14) in combination with the rest of the claimed limitations as set forth in claims 7 and 14.

Examiner notes that Finish Patent (28,777) teaches an offset debarking shaft and guiding surface (fig. 3), however FI (28,777) fails to disclose or fairly suggest *a slot between the guiding surface and the offset debarking shaft wherein the slot converges along a direction aligned with a rotation direction of the debarking shaft or advancing the removed bark over the rotating offset debarking shaft and through a slot formed between the offset debarking shaft and the guiding surface wherein the slot is too narrow to pass the logs* as set forth in claims 7 and 14.

Accordingly, FI (28,777) neither anticipates nor renders obvious the claimed invention as set forth in claims 7 and 14.

Neither the prior art of record nor any combination thereof discloses the claimed invention as set forth in claims 7 and 14. Accordingly claims 7-20 are deemed allowable over the prior art of record.

Conclusion

This application is in condition for allowance except for the following formal matters:

Drawing corrections, grammar and abstract corrections as noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
